

Septic Systems

This section of the toolkit contains information that can be distributed to the general public on septic systems. The information includes brochures, booklets, and pamphlets and fact sheets that can be reproduced or ordered to educate the general public about septic system runoff issues. The following chart contains a list of the materials that are available in print in this section of the toolkit:

| Title | How to Reproduce/Order | CD | Print Suggestions |
|---|--|-----------|--|
| Septic Tank Fact Sheet | PDF file on CD | Yes | 8.5x11, color paper |
